Pakistan's App Downloads cross the 3 billion-mark

Source: Data.ai

Pakistan's mobile market witnessed strong growth in apps for the fourth year straight, with 3.52B downloads.

This put the country in the 9th position globally in 2022, three notches up from last year.

Higher Smartphone Usage Driving up Activity on Mobile

Source: Data.ai

With ever-greater internet and smartphone users coming online, Pakistanis spent 161 billion hours on mobile in 2022.

This put us in the sixth rank in terms of hours, the same as in 2021.

Average Mobile Broadband Consumption in Pakistan

Source: Pakistan Telecom Authority

The rate of increase in average data consumption slowed down in 2021-22, growing by only 11.5% over the last year.

However, since 2017-18, the average data usage has more than tripled.

Peer Group Comparison

Pakistan's downloads growth outpaces all major markets

Source: Data.ai

Pakistan was the fastest growing apps market in terms of downloads in 2022. Its growth rate of 35.4% was almost three times the next country.

This is on the back of a strong 2021 when the downloads rose by 26.8%, and led the charts.

How Pakistan's downloads stack up against Emerging Markets?

Among peer countries, Pakistan overtook Philippines for the first time in terms of downloads during 2022.

Bangladesh also had a good year and made it to Data.ai's rankings for the first time with around 2.5B downloads.

Total Mobile Apps by Local Publishers

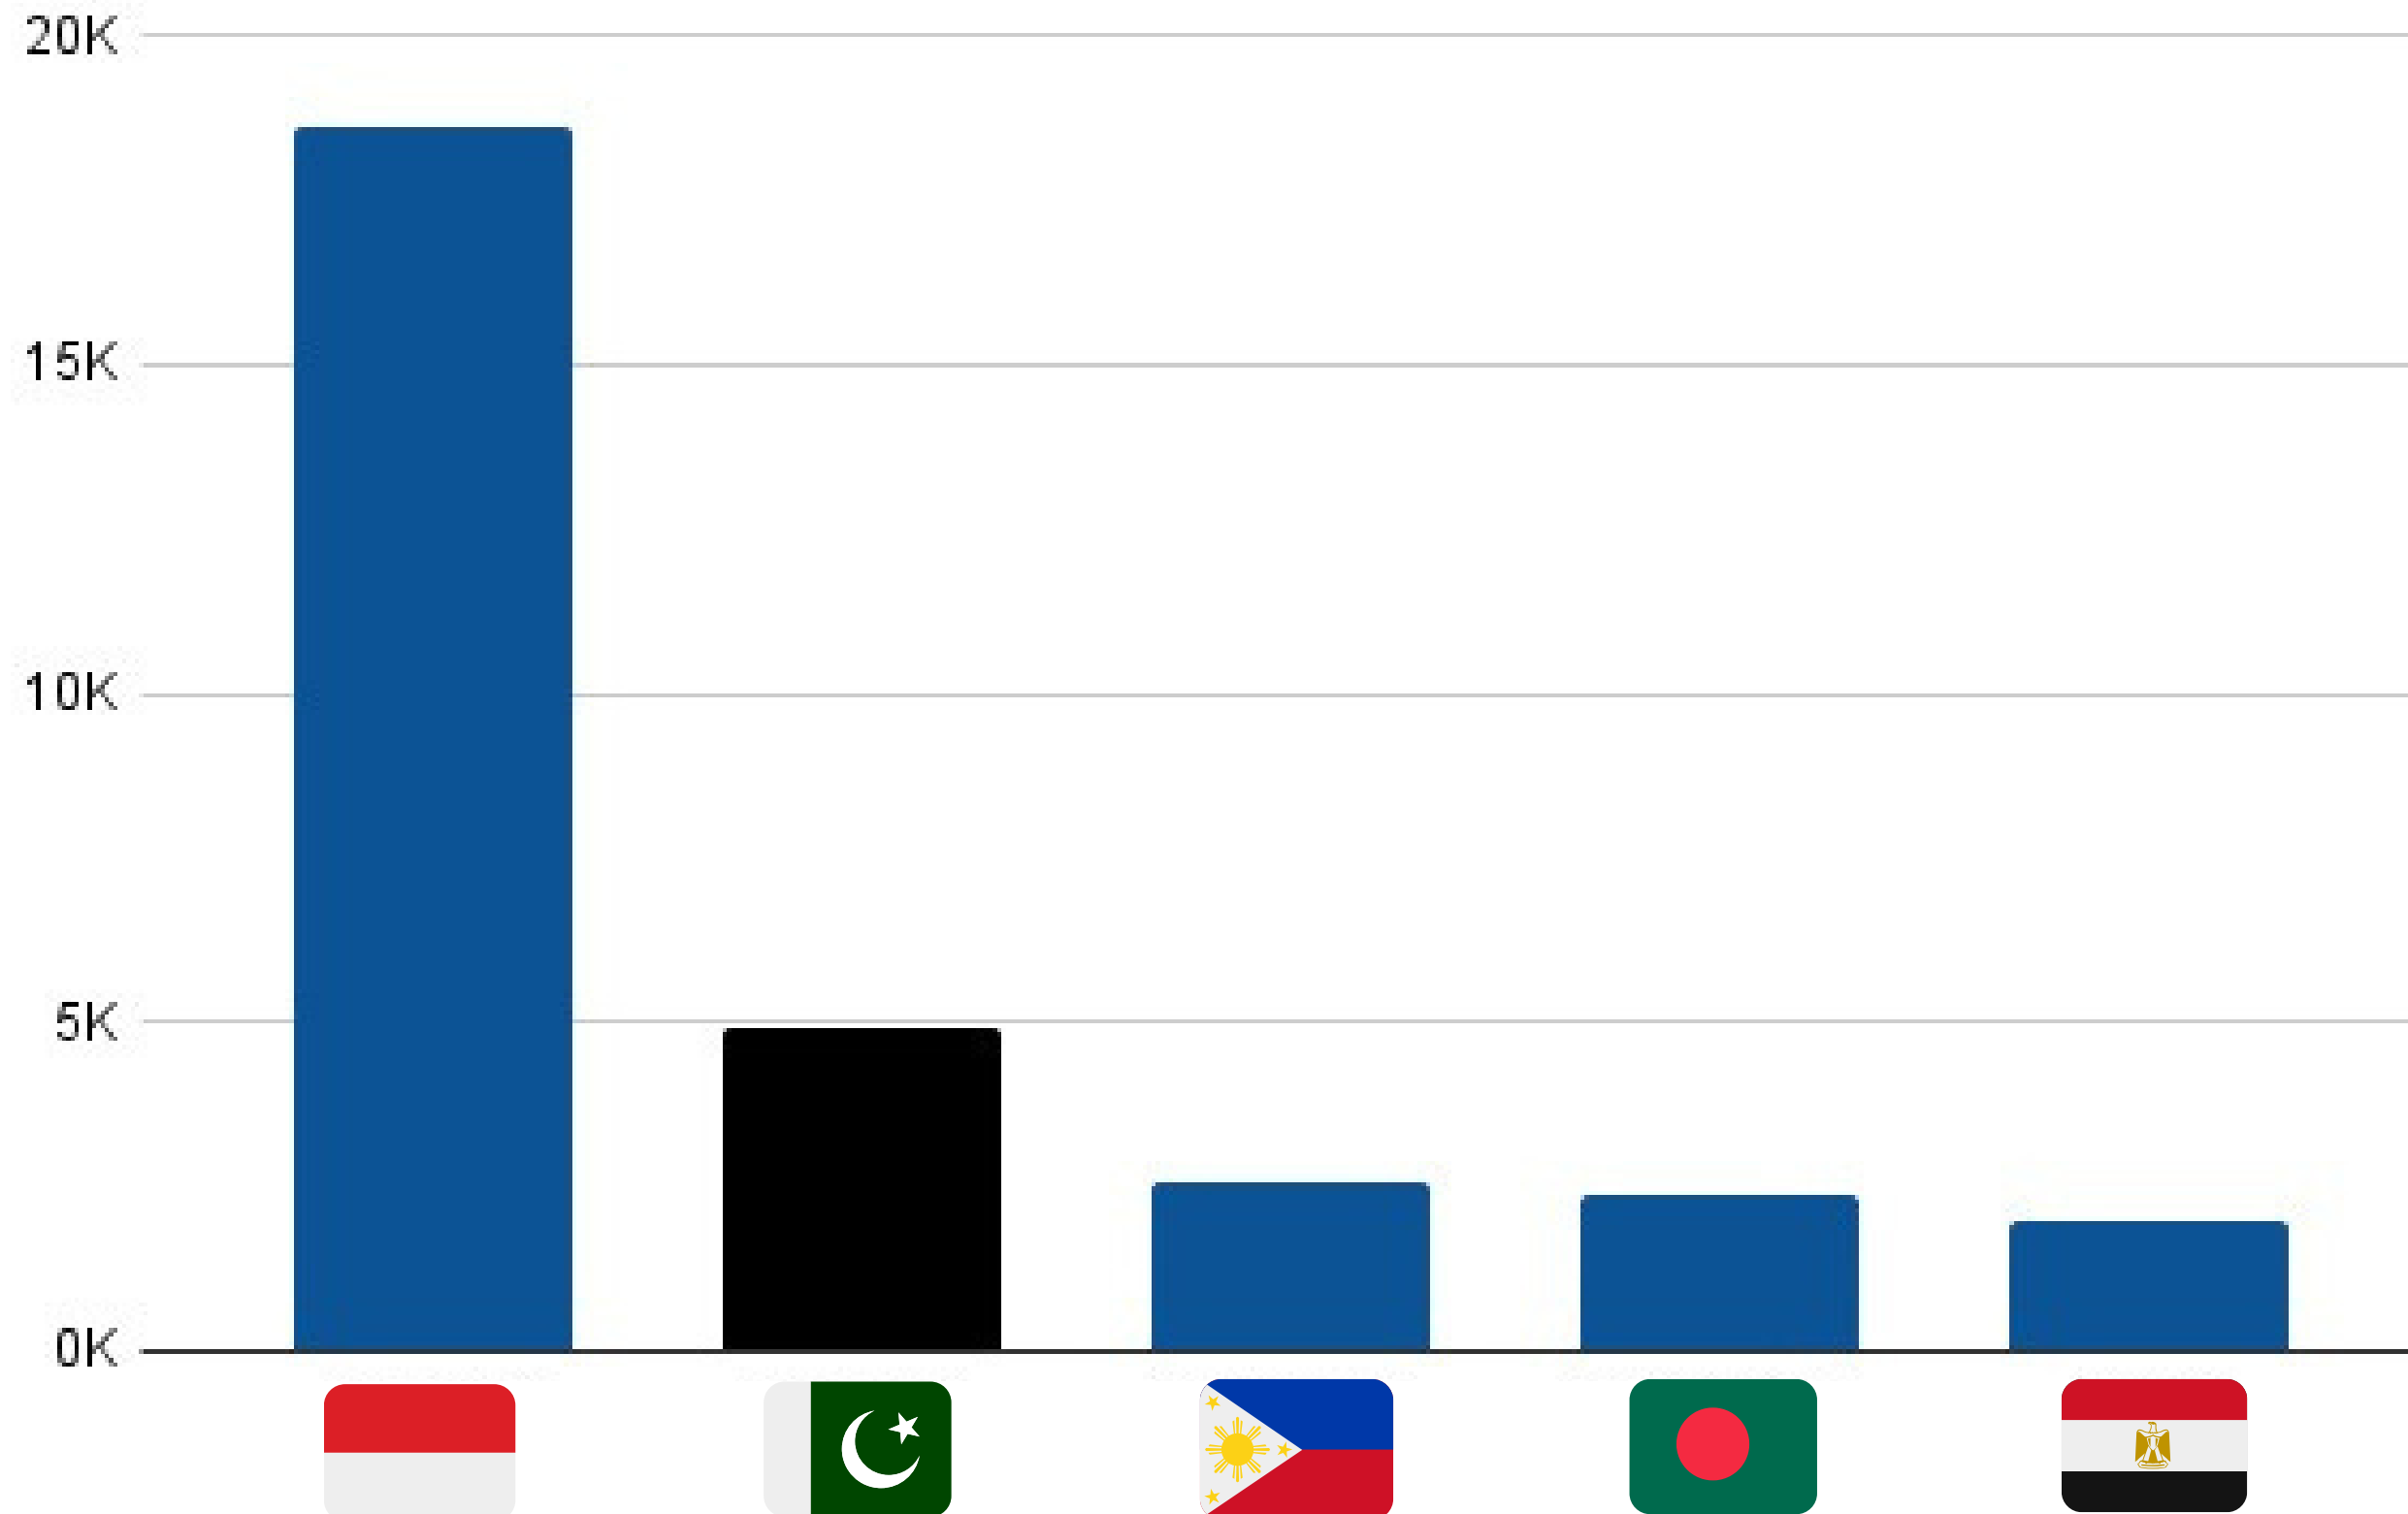

Pakistan was only second to Indonesia in terms of the number of outstanding active apps by local publishers.

However, in terms of traction and usage, very few of the locally developed apps make it to the top charts in Pakistani.

Source: Appfigures

Total Number of Local Publishers

At 4.9K, Pakistan had the second most publishers among peer countries. This number is more than Bangladesh and Egypt combined.

However, some publishers for legal or other reasons are headquartered elsewhere, which might understate numbers for not only Pakistan, but other emerging markets.

Category-Wise Leaders

Most Downloaded Apps in Pakistan

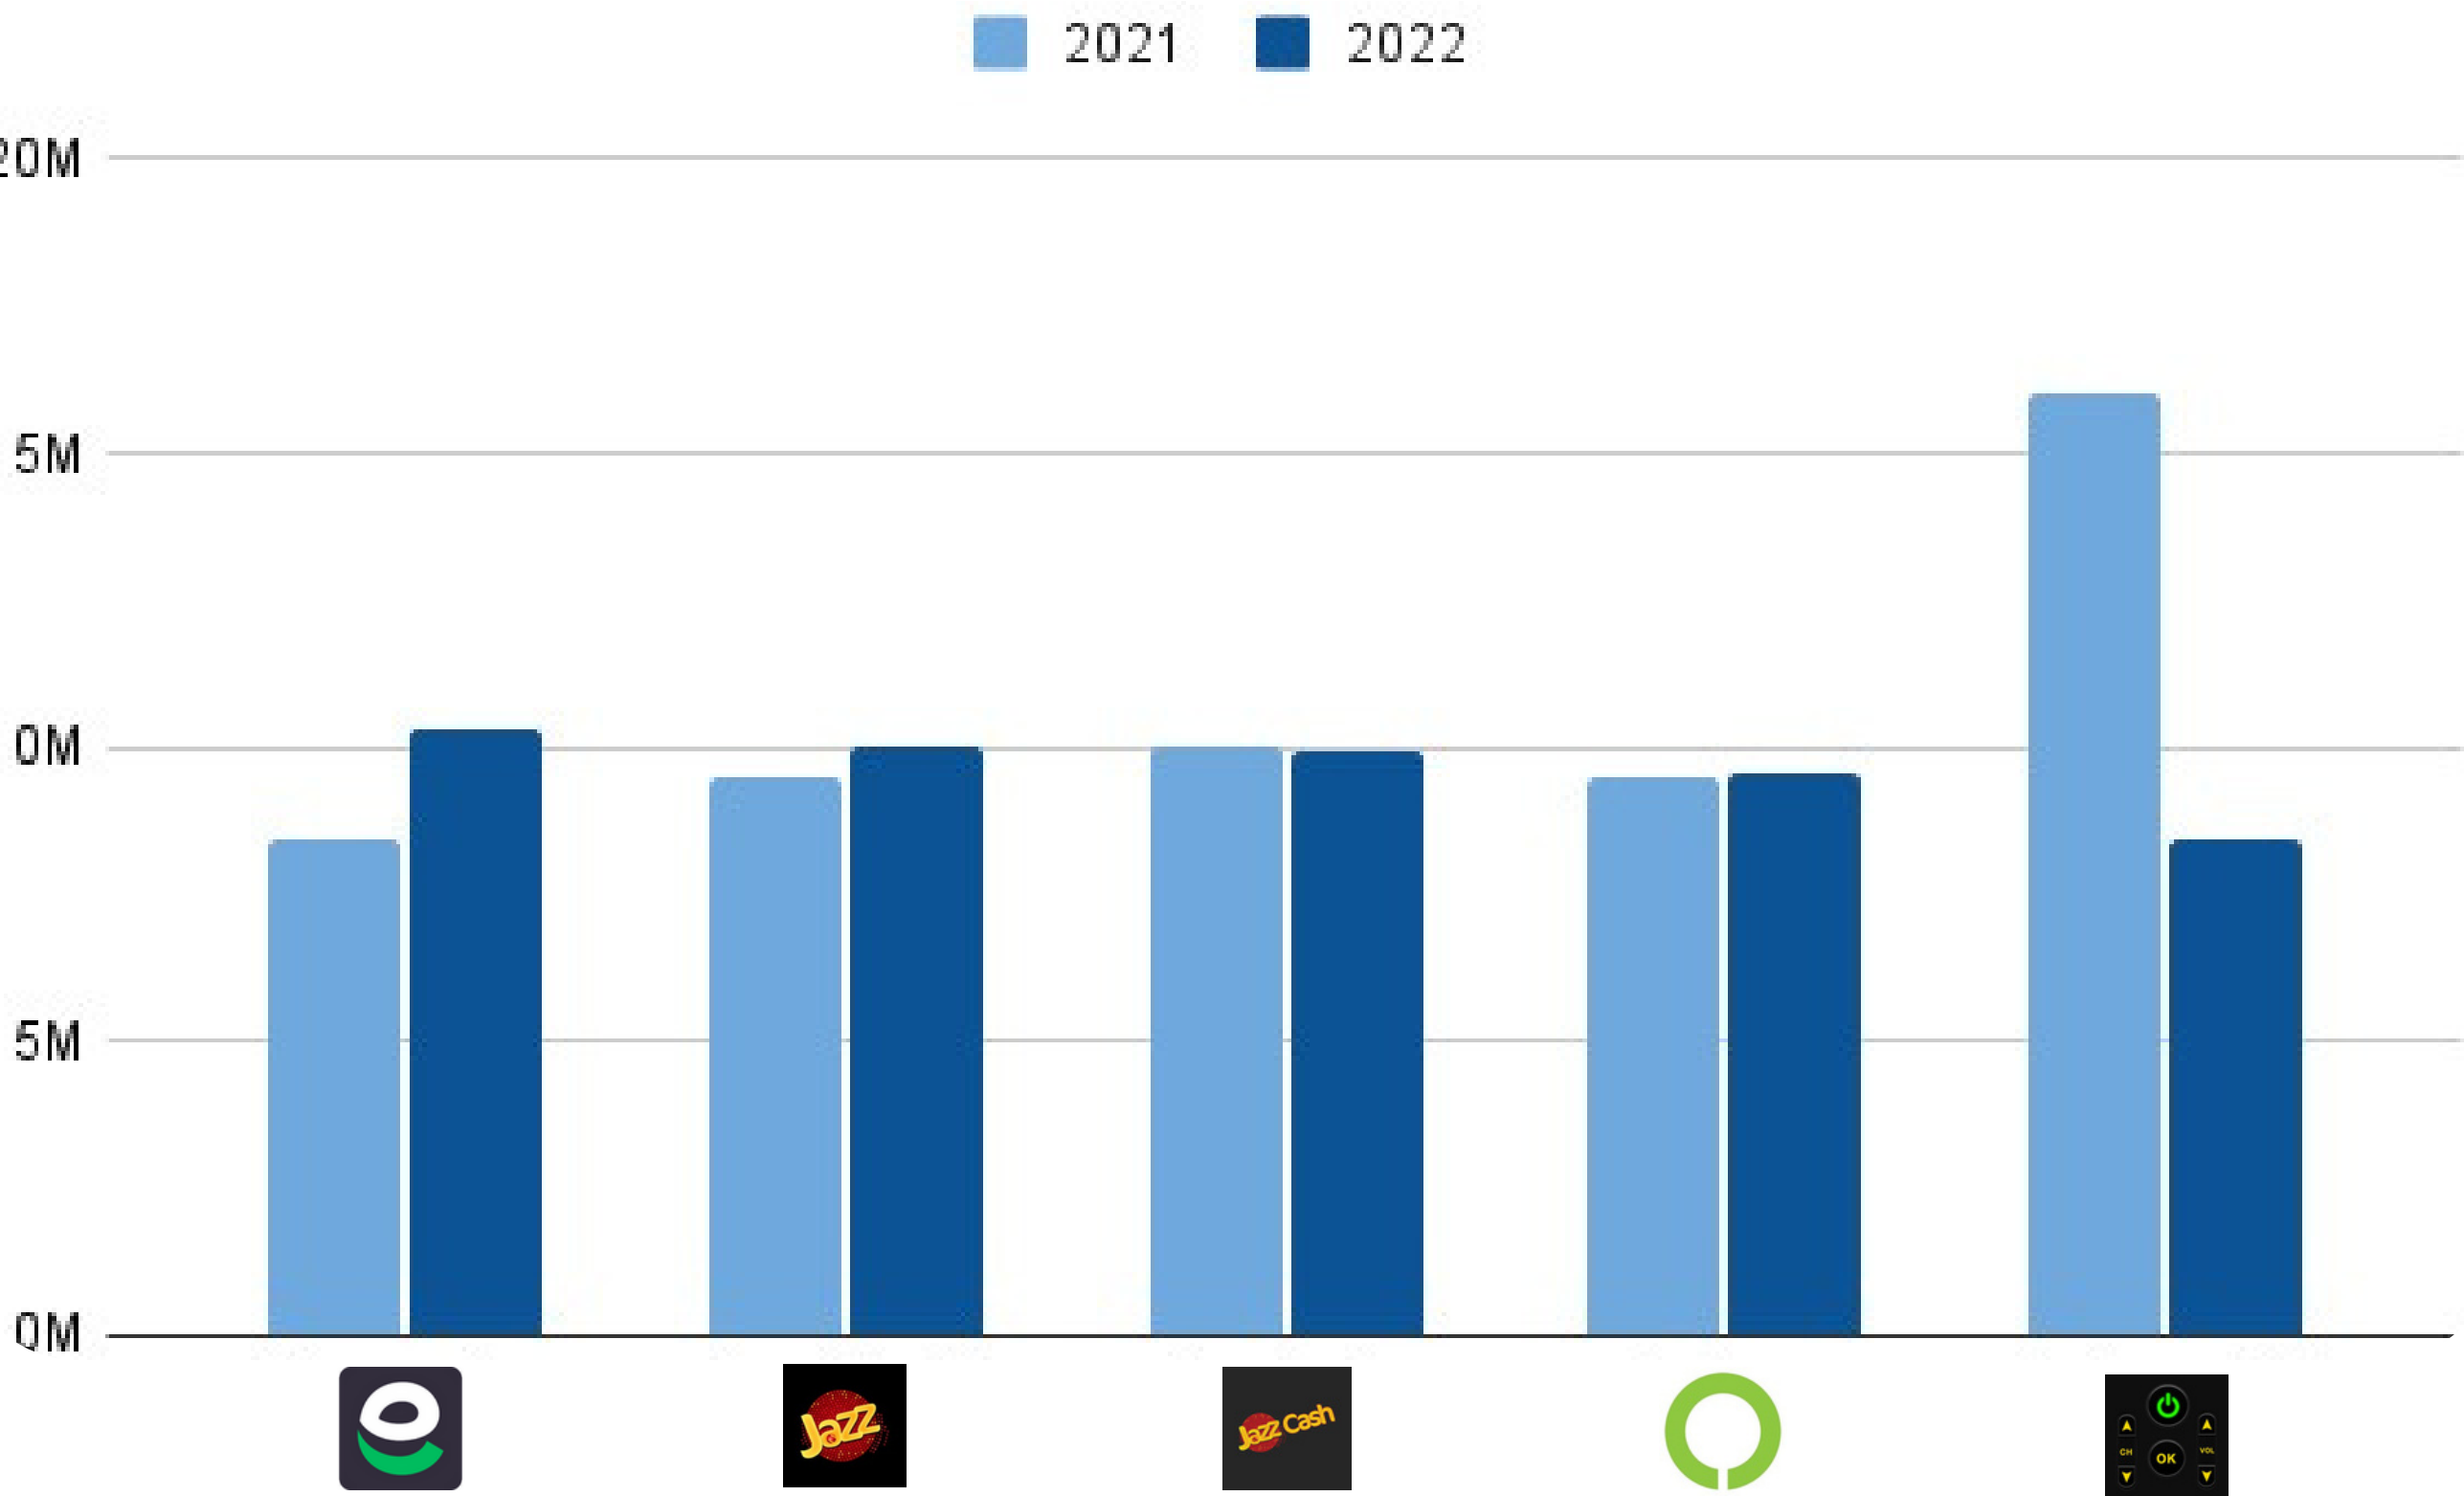

Source: Appfigures

Meta and ByteDance featured prominently in the top ten charts for most downloaded apps in Pakistan. While the popularity of WhatsApp Messenger waned from 2021, WhatsApp for Business witnessed great interest. However, the biggest gainer was CapCut, ByteDance’s video editor.

Meanwhile, Snapchat's growth has continued unabated despite never attracting much hype from media and marketing.

Most Downloaded Apps from Pakistani Developers

Among Pakistan-based developers, telco products continued their dominance - a common trend not just here but other emergings markets like Indonesia and Bangladesh.

Universal TV Remote Control was the odd one out in the list, underlying how the opportunity in tools is truly global. Its publisher Codematics is a tech company based out of Abbottabad and claims over 100M users for this app.

Most Downloaded Shopping Apps in Pakistan

Source: Appfigures

In the shopping category, Alibaba made massive gains on back of its continued engagement with Pakistani businesses.

This helped it even edge out Daraz in terms of downloads, despite their aggressive customer acquisition through cricket streaming. Of course, only a very tiny share of these installs would actually be users.

Most Downloaded Short-Video Apps (excluding TikTok) in Pakistan

Short format video skyrocketed around the world post Covid, including Pakistan as the top five apps (excluding Tiktok) in the category recorded 36M downloads in 2021.

Installs eased to 21.6M but the category continues to lead the "top grossing" chart on Google Play.

Most Downloaded Audio Streaming Apps in Pakistan

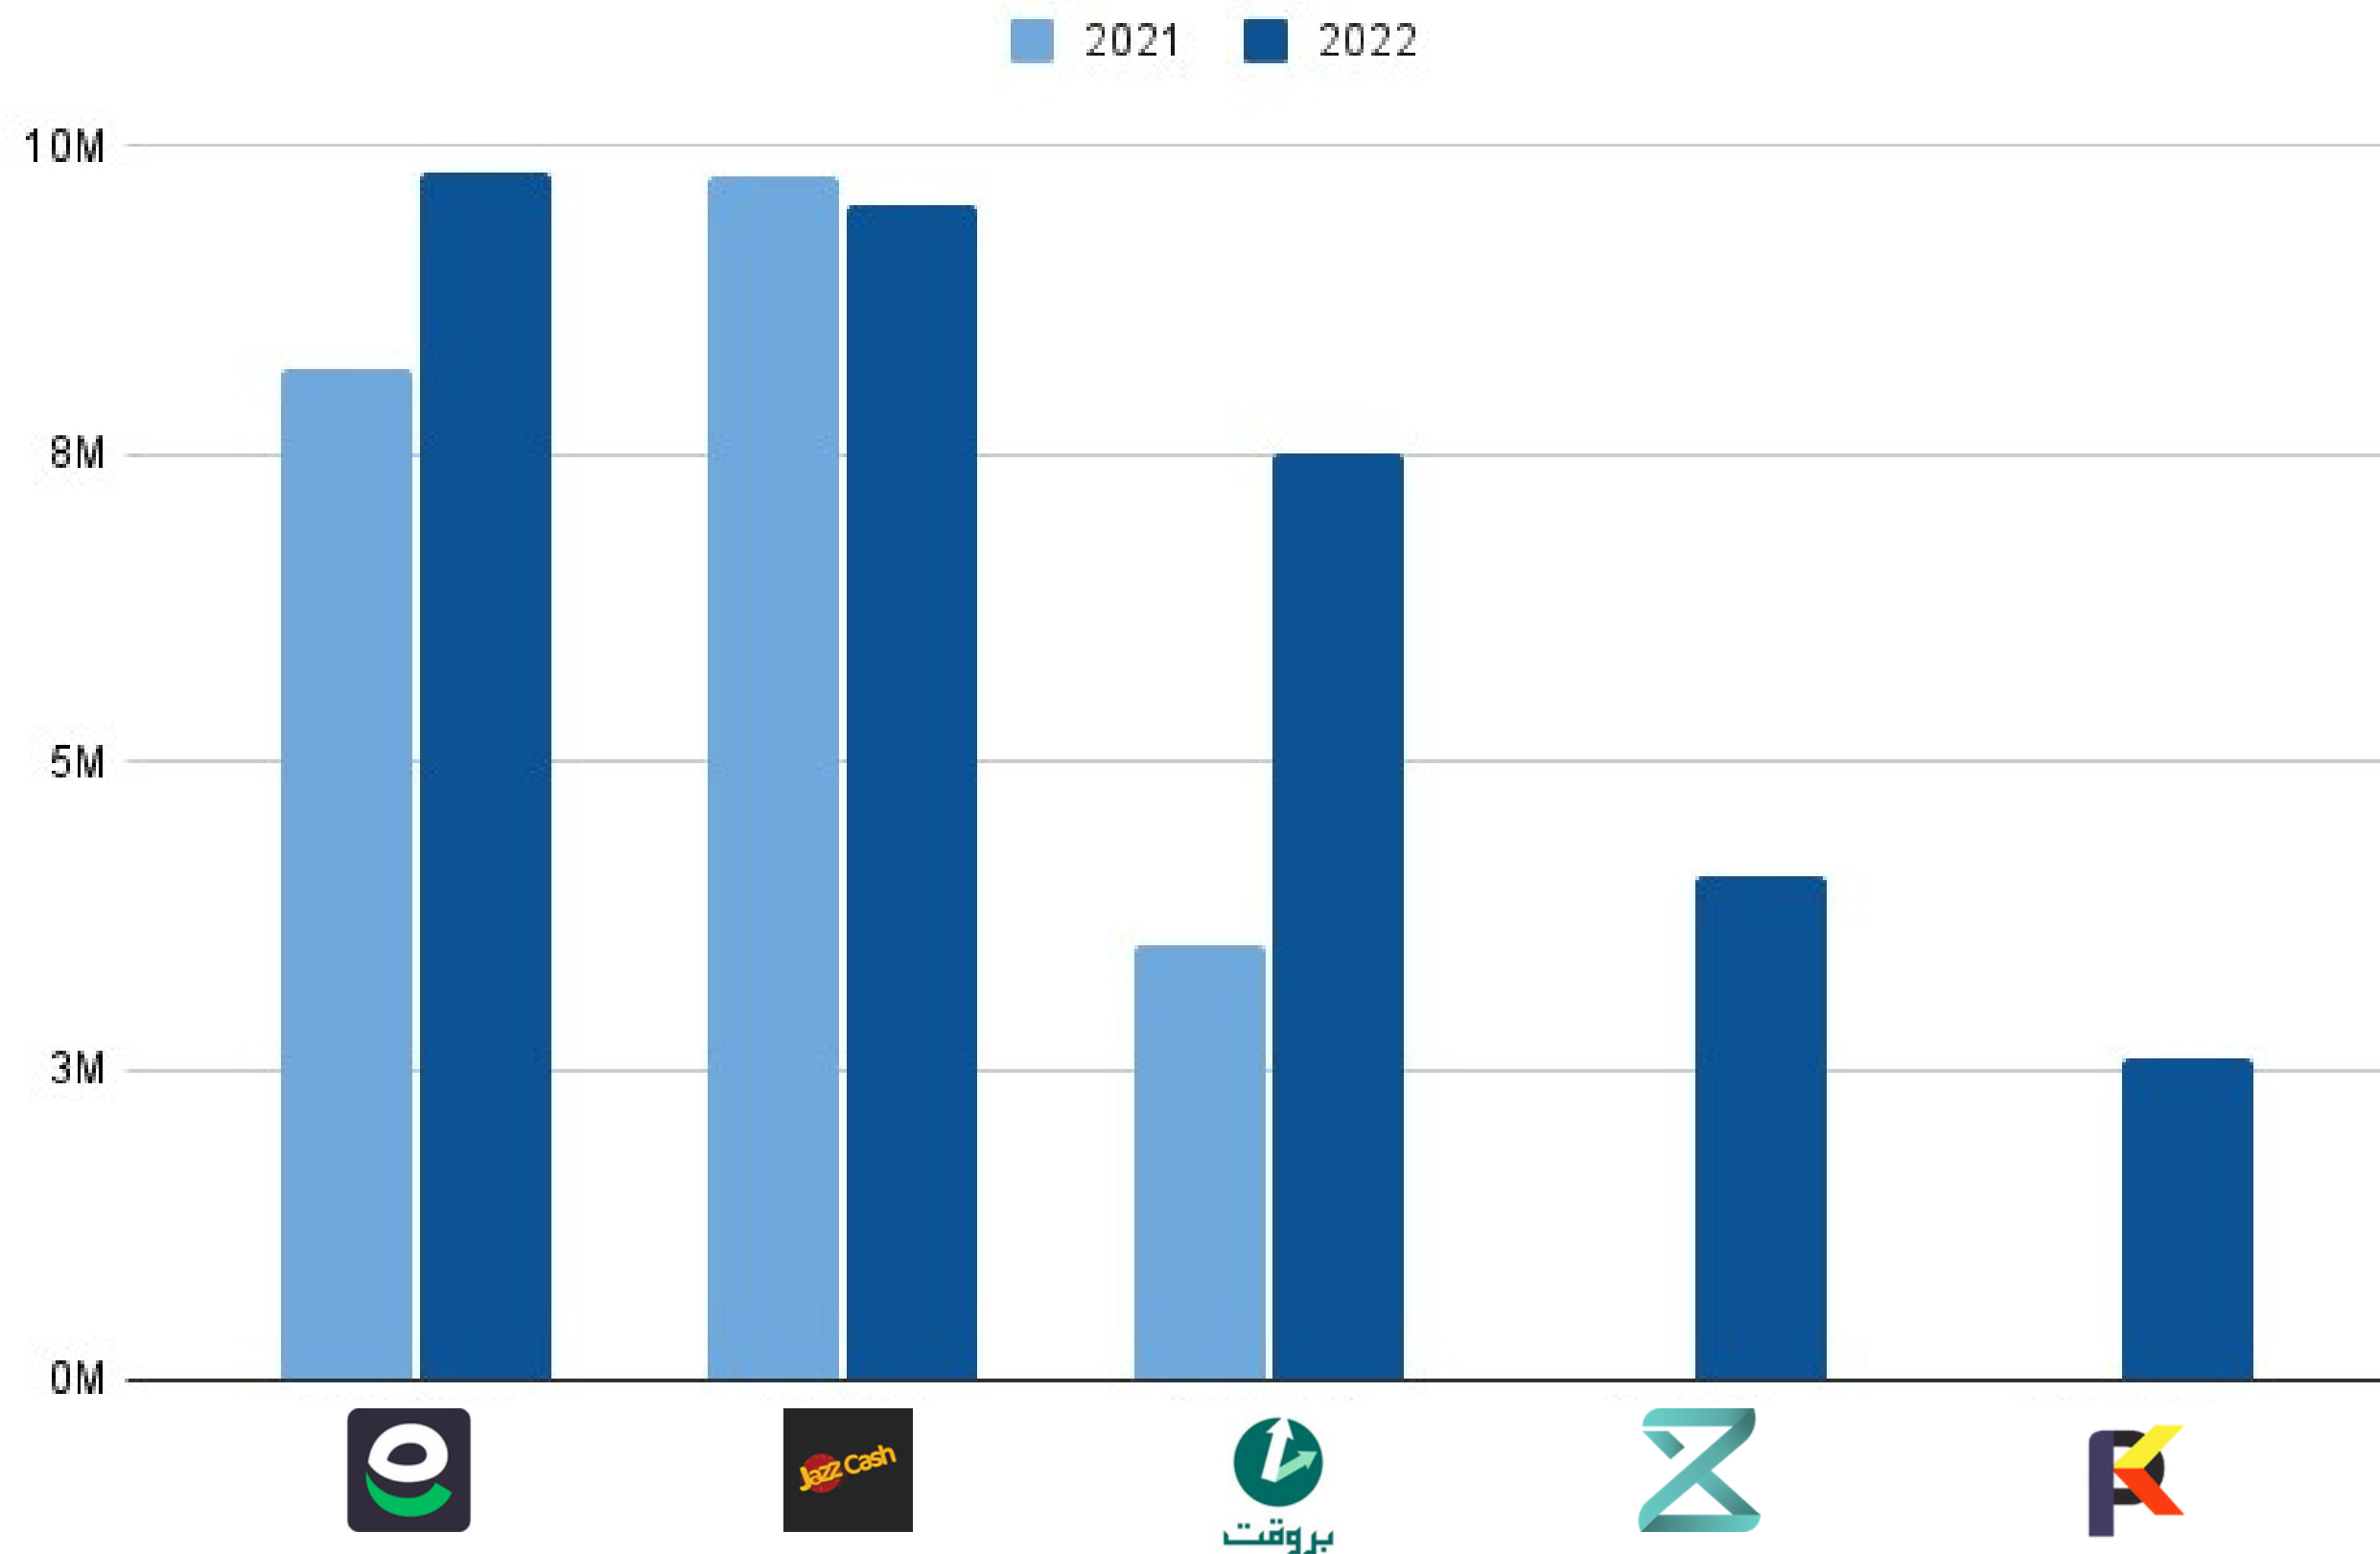

Audio streaming continued its gains in 2022 as downloads of the top five apps reached 23.5M.

More than half of them came from Spotify alone, as the streaming giant further makes inroads into the Pakistani market. Starmaker also doubled its installs appearing on the top charts and made it

Most Downloaded Finance Apps in Pakistan

Source: Appfigures

It was the usual suspects at the top of finance category. With around ~15M Monthly Active Users each, EasyPaisa and JazzCash were unsurprisingly the most downloaded apps. Zindigi from JS Bank also aggressively marketed its digital wallet.

Meanwhile, digital lending apps had a somewhat mixed 2022 as amid spike in downloads, they witnessed a regulatory crackdown.

Most Downloaded Video Streaming Apps in Pakistan

Source: Appfigures

In video streaming, Tamasha finally had its moment and doubled its downloads, beating Netflix by a margin. ARY ZAP also emerged on the scene as a major player.

However, the category continues to rely heavily on cricket streaming to attract users and is characterized by low retention rates.
